**Financial Modules, FORMS, REPORTS, PL/sql
Oracle Apps**

PROJECT #5	KPIT CUMMINS INFOSYSTEMS LTD The MRP plan is netted with Purchasing, WIP and Inventory to do planning calculations and recommendations. Even though MRP by design can be made to give shortage exceptions, it is tedious to maintain planning time fence and exceptions sets in the Organization item attributes for thousands of items. MRP also takes into account the scheduled receipts (Purchase Order receipts and WIP discrete jobs) as potential supply and uses that in the calculation of projected available on hand which is not desired by the business and hence the necessity of this custom report. This report is similar to Standard Planning report; this gives the available balance for each day for an item (which falls short within the 10-day period) excluding the Shop Orders, Phantoms and Expense items.
